Opening Provocation

Why do payments matter and how are they changing? Where does the UK stand globally? Where is the opportunity? And what do we need to hear today to ensure we seize it?

Agentic Commerce: How Can The UK Lead The World?

What are firms doing now; where will agentic commerce emerge and take off; what gives the UK strong foundations; what do we need in UK to be a world leader?

Consumer Trust When Machines Make The Purchase

When an AI agent makes a purchase, who is accountable if something goes wrong? In this session we explore the trust questions that sit at the heart of the next phase of digital payments, including authentication, consent, fraud and dispute resolution in an agentic world, and how the industry can design payment experiences that are both effortless and worthy of consumer confidence.

The CEO Panel: GBP Stablecoin Leaders

What will GBP stablecoin look like in a year and what more do we need from policy makers. How does the panel see GBP stablecoin use cases developing and what do they see as the prime points of adoption.

Morning Networking Break

Open Banking Payments

How can commercial VRP become the UK's Swish or PIX? Where are we now, what is next and how does it become ubiquitous?

Timings and speakers to be confirmed.
